"Reho Venona" 32' Triple Gasoline

Whitewater Expedition's "Reho Venona" is powered by triple Kodiak 6.0L gasoline engines and coupled to Hamilton 212's with 3.4 turbo impellers. 2 passenger bus seats are designed to either face forward during tour season or placed as bench seats during fall steelhead season. The custom aluminum top has overhead viewing windows to take advantage of the spectacular Salmon River scenery. The custom rear rails have a drop gate aft to accommodate the loading of rafts and gear. The windshield incorporates a custom sliding door, the top a custom life jacket storage bin and numerous custom applications throughout the entire vessel.

Bentz Boats has set the standard for quality and innovation for over 35 years. Since our 1st aluminum jetboat boat built in 1970 we have developed superior quality, efficient and agile handling boats. Through years of personal and commercial use, customer feedback and innovative designs, Bentz Boats has acquired a domestic and international clientele not only for our superior boat design but also our commitment to quality. Attention to detail and a high quality build standard makes Bentz Boats extremely tough with a high degree of impact resistance and helps ensure that each boat operates with a minimum of maintenance.

Bentz pioneered features include the sled shaped bow, forward and center pilot station, short stroke mechanical stick steering and delta pad bottom. These features contribute to our boats' superior handling, quick planing and shallow running capabilities.

SPECIFICATIONS
