## Alaska Vista - "Tethys"

The "Tethys" was re-designed to allow full passenger carriage in boats of this size range after US Coast Guard passengers weights were changed to 185 lbs per passenger causing the reduction of passengers in many of existing boats. The design changes allow a full 18 passengers and 2 crew to an exposed waters criteria.

These small twins allow good usage for both the agile needs of fresh water rivers and stability requirements of saltwater use.

Bentz Boats has set the standard for quality and innovation for over 40 years. Since our 1st aluminum jetboat boat built in 1970 we have developed superior quality, efficient and agile handling boats. Through years of personal and commercial use, customer feedback and innovative designs, Bentz Boats has acquired a domestic and international clientele not only for our superior boat design but also our commitment to quality. Attention to detail and a high quality build standard makes Bentz Boats extremely tough with a high degree of impact resistance and helps ensure that each boat operates with a minimum of maintenance.

Bentz Boats has developed our hull designs to operate in the conditions specific to each customer. From shallow, fast running rivers to open saltwater conditions. Each boat is designed with passenger comfort, stability and safety in mind.

## SPECIFICATIONS

**Owner:** Alaska Vistas  
**Home Port:** Wrangell, Alaska  
**Designer:** Bryan Bentz  
**Builder:** Bentz Boats, LLC  
**Construction Material:** Aluminum
