## "JP29"

JP29 is a current version of a classic Bentz twin design utilizing Yanmar 6LP, 315 hp diesel engines and Hamilton 241 jet units, a proven combination. JP29 will operate in South America as a passenger transport and cargo carrying vessel. With onboard electronics and multiple spot lights this vessel will be able to safely travel many sections of river in marginal light conditions. The same US Coast Guard standards for construction plus all accessories were installed to ensure safe operations in remote areas.

Bentz Boats has set the standard for quality and innovation for over 40 years. Since our 1st aluminum jetboat boat built in 1970 we have developed superior quality, efficient and agile handling boats. Through years of personal and commercial use, customer feedback and innovative designs, Bentz Boats has acquired a domestic and international clientele not only for our superior boat design but also our commitment to quality. Attention to detail and a high quality build standard makes Bentz Boats extremely tough with a high degree of impact resistance and helps ensure that each boat operates with a minimum of maintenance.

Bentz Boats has developed our hull designs to operate in the conditions specific to each customer. From shallow, fast running rivers to open saltwater conditions. Each boat is designed with passenger comfort, stability and safety in mind.

## SPECIFICATIONS
