Guyana 34' Twin Diesel

The River Quest vessel is the newest addition to an ever growing fleet of Bentz Boats being operated in Guyana, South America.

The 34' twin is powered by Yanmar 6LYA-STP, 370 hp diesel engines and coupled to Hamilton 274 jet units. The superior hull design combined with the Yanmar diesel power package and Hamilton jet units allows this boat to easily pickup and carry its 8500 lb. freight requirement. Used to transport personnel and freight into Guyana's interior for various mining operations this boat has exceeded all expectations of the owner.

The boat included removable seating for freight transport, an onboard head, an engine oil change system, fold down rear seating, large aft deck space, VHF radio and USCG certification standards for life saving equipment. Additionally self cleaning sand traps and sea strainers were installed due to the water conditions the boat operates in.

Bentz Boats has set the standard for quality and innovation for over 35 years. Since our 1st aluminum jetboat boat built in 1970 we have developed superior quality, efficient and agile handling boats. Through years of personal and commercial use, customer feedback and innovative designs, Bentz Boats has acquired a domestic and international clientele not only for our superior boat design but also our commitment to quality. Attention to detail and a high quality build standard makes Bentz Boats extremely tough with a high degree of impact resistance and helps ensure that each boat operates with a minimum of maintenance.

Bentz pioneered features include the sled shaped bow, forward and center pilot station, short stroke mechanical stick steering and delta pad bottom. These features contribute to our boats' superior handling, quick planing and shallow running capabilities.

SPECIFICATIONS

Vessel Name: River Quest
Commercial

Home Port: Georgetown, Guyana
South America

Designer: Darell Bentz

Builder: Bentz Boats, LLC

Construction Material: Aluminum

Length: 34'-0"

Bottom: 9'

Beam: 11'

Draught: 14"
