

Bentz Boats, LLC

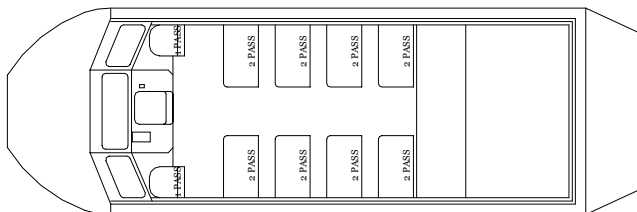

"IKATTOK"

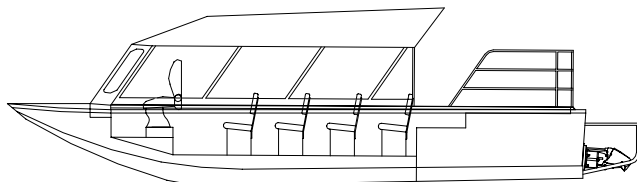

Alaska River Excursions enhances the Alaska experience for cruise line passengers, hotel and resort guests, and individuals with tours up the Susitna and Talkeetna Rivers.

Water levels fluctuate wildly on these two glacial fed rivers so the Keoghs chose a 28', twin engine, river tour boat with Hamilton 212 pumps to provide the power and versatility to navigate the powerful hydraulics of wild whitewater or shallow sandy deltas safely and dependably. The boat is U.S. Coast Guard certified for 18 passengers who can ride in comfortable bus style seating and also use the open rear deck. The canvas top can be removed when weather permits and the expansive sliding glass side windows let the passengers see the panoramic views rain or shine. This versatile boat becomes part of the passengers' experience.

Bentz's specially designed delta pad bottom, combined with superb weight distribution, extends the boating season by allowing the boat to work in shallow late season water flows that stops most competitors. Custom built for the water you need to run.

POTENTIAL USERS

TOUR OPERATORS – capable of reaching speeds in excess of 50 mph, high maneuverability and shallow draught allows tour companies, resorts and hotels to offer access to remote areas not accessible by other boats.

MINING AND EXPLORATION – in severe water conditions this rugged vessel can deliver people and supplies economically to the most remote locations in the world.

PUBLIC TRANSPORTATION – with a shallow draught, small wake, low maintenance and quick maneuverability this boat offers the perfect alternative to busses and trains along inland waterways.
