

# Bentz Boats, LLC

## POSSIBLE USERS

**GUIDES AND OUTFITTERS** – high maneuverability, shallow draft, expansive interior room and rugged construction allows comfortable access to remote fishing and hunting opportunities.

**EXTREME WHITEWATER ADVENTURES** – the shallow draft, rugged construction, powerful engine and pump combination with the turbo impeller make this boat a natural for whitewater enthusiasts seeking new rivers to navigate.

**GOVERNMENT AGENCIES** – constructed to exceed USCG certification standards this boat will allow law enforcement, wildlife management, search and rescue, fisheries and the military years of dependable, trouble free service.

Bob & Sharon Mink purchased their 25' Bentz Boat as a fishing and pleasure boat with the intent to be able to operate the boat in the technical waters of the Salmon River and big whitewater in Hell's Canyon of the Snake river.

Their boat is powered with an 8.1 Liter, 496 CID Kodiak Marine gas motor matched to Hamilton's 241 jet pump. A turbo impeller was installed in the pump to enhance the boats whitewater capabilities. Standard features include full dash instrumentation with vacuum gauge, pilot pantograph wiper, pilot spring ride seat with fold down seats on one side and a small spring ride on the other, bench seats with backrests, fish box, heater, removable rear rails, a marine grade vinyl top with top trays, top rails and dome lights and Coast Guard approved running and navigation lights. "Extras" include a cross storage box, banana seats for the rear rails, a quick disconnect fuel line for the trolling motor, a padded, removable trolling motor seat, sliding glass side windows, net holder, rocket launcher and passenger wipers for the doors.

Bentz pioneered features include the sled shaped bow, forward and center pilot seat, the short stroke mechanical stick steering and delta pad bottom. These innovations contribute to the boats superior handling, quick planing and shallow running capabilities.
