

Bentz Boats, LLC

POSSIBLE USERS

GUIDES AND OUTFITTERS – high maneuverability and rugged construction allows access to remote fishing, hunting and sight seeing opportunities for a world wide customer base.

TOUR OPERATORS – capable of reaching speeds in excess of 50 mph, high maneuverability and shallow draught allows tour companies, resorts and hotels to offer access to remote areas not accessible by other boats.

EXTREME WHITEWATER ADVENTURES – the shallow draft and twin engines and pumps along with double welded seams and gusseted longitudinal and cross bracing provide the power and hull strength to challenge enthusiasts.

GOVERNMENT AGENCIES – law enforcement, fisheries, mail delivery, wildlife management, and the military can use inland waterways more efficiently.

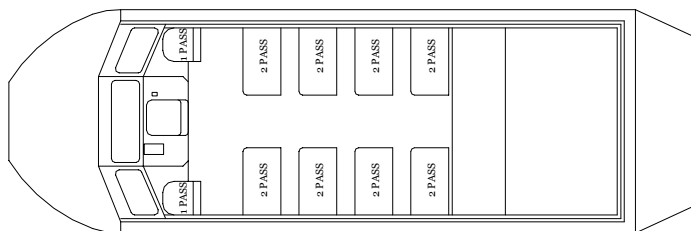

"Ocean Pro"

The "Ocean Pro" is the second vessel built for Breakaway Adventures and designed to handle the rough open water conditions experienced around Wrangell, AK.

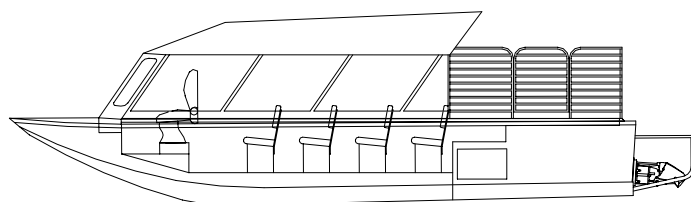

Complimenting their original boat the "Stikine Dream" which was designed for river/whitewater tours, the "Ocean Pro" incorporates a deeper vee in the nose and greater deadrise to handle the ocean conditions it operates in. Breakaway Adventures maintained several unique features incorporated in the Stikine Dream such as the bus style seats which offer seat belts and a backrest bumper pad for customer safety.

The twin Yanmar 315 hp diesels combined with Hamilton 241 jet pumps give the fuel economy and load carrying capacity Breakaway Adventures needs for their longer excursions.

The deeper vee in the bow, the forward and center helm seat, and the short stroke mechanical stick steering all contribute to the superior handling and soft ride characteristics that Bentz Boats exhibit in open water operations. The delta pad bottom design brings the boat up on plane quickly and allows shallow water operations when crossing the local deltas during low tide conditions.
