Bentz Boats has set the standard for quality and innovation for over 40 years. Since our 1st aluminum jetboat boat built in 1970 we have developed superior quality, efficient and agile handling boats. Through years of personal and commercial use, customer feedback and innovative designs, Bentz Boats has acquired a domestic and international clientele not only for our superior boat design but also our commitment to quality. Attention to detail and a high quality build standard makes Bentz Boats extremely tough with a high degree of impact resistance and helps ensure that each boat operates with a minimum of maintenance.

"Semper Fidelis"

The "Semper Fidelis" is the latest in a series of open sled designs accentuating outdoor activities for boating, fishing and hunting. Kodiak's 6.2L LS3, naturally aspirated motor and Hamilton 212 with a 2.9 turbo impeller offers a sporty propulsion package. Storage lockers, trays and boxes are integrated throughout. Multiple seating areas were designed with fishing in mind. The raised pilot station offers tremendous visibility for operating in technical waters as well as working fishermen into perfect fishing spots. As always the mechanical stick steering allows for quick maneuvering.

Bentz Boats has developed our hull designs to operate in the conditions specific to each customer. From shallow, fast running rivers to open saltwater conditions. Each boat is designed with passenger comfort, stability and safety in mind.
