29' Twin Diesel

Joe Scott of Boise, Idaho wanted a boat that would safely handle the tough whitewater of upper Hell's Canyon and the technical waters of the Salmon River with superior fuel economy.

Scott's boat is powered by Yanmar 315 hp diesel engines and coupled to Hamilton 213's with 3.4 turbo impellers. Standard features include spring ride seat with a small passenger spring ride seat and a jump seat on either side, bench seats with backrests, top trays, dual fish boxes, heater, pilot pantograph wiper, full instrumentation, removable rear rails, dome lights and Coast Guard approved running and navigation lights. Extra's include stereo with 4 speakers, watertight cross storage box, washdown system, diamond tread floors, self-bailing motor cover lids and seat box extensions to the fuel cell with a table integrated into the top of one.

Bentz Boats has set the standard for quality and innovation for over 35 years. Since our 1st aluminum jetboat boat built in 1970 we have developed superior quality, efficient and agile handling boats. Through years of personal and commercial use, customer feedback and innovative designs, Bentz Boats has acquired a domestic and international clientele not only for our superior boat design but also our commitment to quality. Attention to detail and a high quality build standard makes Bentz Boats extremely tough with a high degree of impact resistance and helps ensure that each boat operates with a minimum of maintenance.

Bentz pioneered features include the sled shaped bow, forward and center pilot station, short stroke mechanical stick steering and delta pad bottom. These features contribute to our boats' superior handling, quick planing and shallow running capabilities.

SPECIFICATIONS

Owner: Joe Scott
Private, Recreational

Home Port: Boise, Idaho

Designer: Darell Bentz

Builder: Bentz Boats, LLC

Construction Material: Aluminum

Length: 29'-0"

Bottom: 7.5'

Beam: 9.5'
