Alaska Travel Adventures "North Star"

The "North Star" was designed for the open waters of Juneau, Alaska and built to ABS High Speed Aluminum Craft Standards and USCG certified for 48 passengers. Triple 503hp CAT C9 diesel engines and Hamilton 292 jet units provided a 30 knot cruise with full passenger weights. Features include large interior windows and a large aft deck for wildlife viewing, an on board head, heating, surround sound stereo and PA system keeps the passengers entertained and comfortable during their tour. The vessel offers wheel chair tie down and a single level floor for improved wheelchair access.

Bentz Boats has set the standard for quality and innovation for over 35 years. Since our 1st aluminum jetboat boat built in 1970 we have developed superior quality, efficient and agile handling boats. Through years of personal and commercial use, customer feedback and innovative designs, Bentz Boats has acquired a domestic and international clientele not only for our superior boat design but also our commitment to quality. Attention to detail and a high quality build standard makes Bentz Boats extremely tough with a high degree of impact resistance and helps ensure that each boat operates with a minimum of maintenance.

Bentz pioneered features include the sled shaped bow, forward and center pilot station, short stroke mechanical stick steering and delta pad bottom. These features contribute to our boats' superior handling, quick planing and shallow running capabilities.
